

## Statement of Rep. Mike Castle on Leadership Decision to Postpone Vote on House Budget Resolution -- April 6, 2006

WASHINGTON, D.C. -- Delaware Congressman Mike Castle released the following statement in response to the Republican Leadership's decision to postpone the vote on the House Budget Resolution:

"It is important to have a budget, but it is critical we have the right budget that reflects the priorities of the American people. That is why I have been fighting so hard to adequately fund health, education and other social programs that provide real services that help people. Clearly there are issues that need to be resolved, so delaying the vote is the best way to address the situation. We will continue to negotiate in good faith and work to address our concerns."
