

Internet Safety and Security Tips (June 2008)

[youtube:<http://www.youtube.com/watch?v=4TmRJ9xhDJM> 225px 225px]

Now that school is out and summer vacation is here, many children and young adults will be spending more time at home -- using their personal computers and surfing the Internet. June has been designated as "Internet Safety Month" and is an excellent time to remind not only our children but also parents and families about the importance of Internet safety and security.
